CC-3 or E- 103	Growing Up as a Learner	 CO1: Attain the basic principles of psychology of learners. CO2: Describe learner characteristics and implications for teaching-learning. CO3: Defines learner's mental health problems & choose appropriate strategies to cope with such problems. CO4: Choose various psychological principles and approaches to learning. CO5: Acquaint the role of psychology in the teaching-learning process.

CC-4 or E-	Teacher, Teaching	CO1. Define the basis of advecting of the basis of a
104	and Technology	 CO1: Define the basis of educational technology and to develop awareness about recent developments in the areas of educational technology. CO2: Acquaint with the various technologies to apply for improving instructional practices CO3: Create awareness about teaching skill required for effective instructional and institutional management. CO4: Apply Advanced Pedagogical approaches to meet the needs of diverse learners. CO5: Differentiate between instructional strategies in different classroom situations.
E-201	Pedagogy of Hindi	 CO1: Describe the nature and characteristics of a language and mother tongue and the use of language. CO2: Acquaint with the required skill and their interlinks for mastering a language. CO3: Analyse the various approaches for planning for successful language teaching. CO4. Explain the Approaches for teaching different aspects of language. CO5: Describe the Aids and other similar available material that could be used for teaching language. CO6: Select the technique of obtaining feedback for self evaluation and evaluation of student's success in learning and using the language.
E-202	Pedagogy of English	 CO1: Acquire proficiencies in listening, speaking, reading, and writing and communication skills. CO2: Acquaint with essential aspects of English Grammar and composition. CO3: Understand the scope of syllabi in English. CO4: Develop interest and attitude towards English as foreign language.
E-203	Pedagogy of Sanskrit	 CO1: Understand the nature, scope values and objectives of teaching Sanskrit at Secondary level. CO2: Develop competence in teaching different topics of Sanskrit effectively. CO3: Develop scientific temper & provide teaching in scientific method to their student. CO4: Use various methods with appropriateness of content, level and classroom situations to make pupil's learning meaningful.
E-204	Pedagogy of Social Science	 CO1: Define concept, meaning and scope of social sciences. CO2: Acquaint with the appropriate methodology as applicable to social sciences. CO3: Select the skill in teaching social sciences. CO4: Apply knowledge of various evaluation procedures and effective evaluation tools. CO5: Acquire the ability to develop instructional support materials.

E-205	Pedagogy of	CO1: Illustrate nature, scope & importance of
	Mathematics	Mathematics at secondary level.
		CO2: Analyse the textbook& content of Mathematics a
		secondary level.
		CO3: Explain basic concepts in Arithmetic, algebra, and
		Geometry.
		CO4: Illustrate facts, terms, concepts, laws & principle
		in Mathematics.
		CO5: Apply basic concepts of Mathematics in daily life
E-206	Pedagogy of Physical	CO1: Understand the nature, scope values and objective
L-200	Science	of teaching science at Secondary level.
	Science	
		CO2: Develop competence in teaching different topic of Physical Science effectively
		CO3: Develop scientific temper & provide teaching in
		scientific method to their student
		CO4: Use various methods with appropriateness of
		content, level and classroom situations to make learnin
		meaningful.
		CO5: Utilize the instructional materials effectively in the
		teaching of Physical Science.
		CO6: Organize Co-curricular activities & practical wor
		in Physical Science.
E-207	Pedagogy of	CO1: Explain the nature, place, values and objective of
	Biological Science	teaching Biology at Senior Secondary level.
		CO2: Evaluate critically the existing syllabus of Biolog
		prescribed for Secondary/Senior Secondary level.
		CO3: Develop yearly plan, unit plan and lesson for
		Senior Secondary classes.
		CO4: Use various methods and approaches of teachin
		Biology.
		CO5: Acquire the ability to develop instructional support
		system.
		CO6: Plan and organize biological practical in th
		Laboratory.
E-208	Teaching of	CO1: Describe the principles and procedures used i
	Computer Education	computer science education.
	· · · · · · · · · · · · · · · · · · ·	CO2: Apply Advanced Pedagogical approaches to mee
		the needs of diverse learners.
		CO3: Select the methods of teaching computer science
		and use them accordingly.
		CO4: Develop educational material using advance
		pedagogical strategies and ICT tools.
E-209	Teaching of Home	
L-209	Science	CO1: Describe the nature and importance of Hom
	Science	Science and its correlation with other subjects
		CO2: Realize the essential unity between laborator
		work and theoretical background of the subject.
		CO4: Analyze school syllabus of the subject in relatio
		to its applicability to practical situation and adaptabilit

E-210	Teaching of Commerce	 of the curriculum to local needs. CO5: Utilize effectively the instructional material in teaching Home Science. CO6: Construct test items to measure objectives belonging to various cognitive levels. CO1: Develop an understanding and use concept mapping and curricular elements in Financial Accounting teaching. CO2: Develop the ability to plan Curriculum in Financial Accounting at senior secondary level. CO3: Undertake Critical appraisal of existing Financial Accounting curriculum at senior secondary level. CO4: Describe the qualities of text book of Financial Accountancy. CO5: Develop necessary skills to prepare and use various instructional/learning methods and Media Integration. CO6 Create awareness about the Professional ethics of a Financial Accounting teacher.
E-301	Creating and	B.Ed2 nd Year CO1: Explain the concept, meaning and significance of
	Inclusive School	 inclusive education. CO2: Illustrate the difference between Main School, Special School, Integrated school, and Inclusive School. CO3: Explain the need for and importance of Inclusive Education. CO4: Illustrate the National policies, programmes and Acts with respect to Inclusive Education in India. CO 6: Identify different types of disabilities. CO 7. Compare the nature and needs of different categories of disabled children. CO 8. Recognize concept, need for and importance of social, economic, and cultural inclusion. CO 10. Apply inclusive instructional strategies at school level. CO 11. Identify the infrastructural facilities necessary for inclusive set up. CO 12. Identify various issues and concerns related with creation of an inclusive culture in school.
E-302	Gender, School, and Society	 CO1: Understand the process of social change and obstacles in social change. CO2: Try to bring social change through the process of education. CO3: Identify the limitations of social change and apply the principles of education in social context. CO4: Recognize the gender sensibility, issues related to gender in school. CO7. Identify the challenging gender inequalities in school and make attempt to establish positive attitude towards gender equality.

E-303	Knowledge and	CO1: Explain the Epistemological basic of education
	Curriculum	CO2: Define curriculum in the context of school
		experiences, evaluation, power, ideology, process and
		practise & its transactional modes.
		CO3: Formulate new curriculum.
		CO4: Acquaint with the ability to read & comprehend.
		CO5: Acquire writing skill
E-304		CO1: Enumerate the concept of work and dignity of
L-304	Work Education,	labour.
	Gandhiji's Nai Talim	CO2: Modify the importance of Gandhiji's ideas on Nai
	and Community	Talim.
	Engagement	CO4: Evaluate the school education programmes and
	Lingugement	policies, which incorporates local community
		engagement aspects.
		CO5: Speculate the various Nai Talim approaches in
		every walk of life.
		CO6: Engage the learners in the local community
		services.
		CO7: Explain the school education programme and
		policies, incorporates local community engagement
		aspects.
		CO8: Engage the various Nai Talim approaches in every
		walk of life.
E-401	Assessment for	CO1: Explain the of key concepts such as measurement
1-401	Learning	&
		evaluation, assessment, test examination, formative &
		summative evaluation etc.
		CO2: Recognize the different kinds of assessment that
		aid student learning.
		CO3: Apply new trends in evaluation, tools of evaluation
		and their uses.
		CO4: Define the different characteristics of standardize
		test Reliability, validity, Norms, etc.
		CO5: Select and apply statistics in educational setting.
E 501	Educational	
E-501		CO1: Explain the student teaches with the concept and
	Administration and	concerns of educational administration.
	Management	CO2: Define an understanding of the role of the
		headmaster and the teacher in school management.
		CO3: Describe the concept at importance of
		communication and its possible barriers in educational
		administration.
		CO4: Analyse the administrative scenario in relation to
		the functioning of the other secondary schools of the
		area.
		CO5: Apply scientific practices of educational
		management and keep him to apply it in work situation.
E-502	Guidance and	CO1: Explain the need for and importance of career
	Counselling	information.

E-503	Environment Education	 CO2: Recognize their role and function in locating, collecting, evaluating, and disseminating career information. CO3: Predict one's ability, interests and aptitudes are related to world of work. CO4: Describe the importance of developing the right attitude and values at every stage of education. CO1: Explain the concept of environmental education. CO2: Describe awareness about the environmental pollution, and possible hazards and its causes and remedies. PO8: Apply the knowledge & skills to deal with issues related to population, environment, gender equality, different literacy, Yoga & Health Education etc. and respond to emerging issues by applying critical, constructive and creative thought process.

PO9: Involve in knowledge dissemination, knowledge creation, research and innovative educational practices related to different stakeholders of education.

PO10: Perform Function effectively either in the role of member or leader in diversified educational settings and Institutions of Teacher Education.

PO11: Use diversified tools & technologies of communications and communication Skills to serve the professional purpose and standards expected from classroom to broader zone of educational activities.

PO12: Comprehend the concept of entrepreneurship and skill sets of an entrepreneur and exploration of different challenges of real-life situation.

Program Specific **Outcomes** (PSOs)

PSO1: To equip the students with the fundamentals of education and instilling educational leadership in them.

PSO2: To inculcate the skills relating to teaching, research, leadership, management computer etc.

PSO3: To Develop a deep critical understanding of the curriculum planning and designing and pedagogy to transact the curriculum effectively and testing the students.

PSO4: To produce morally and upright students who are to contribute in environmental sustainability and social development.

Semester-I			
Course Code	Course Name	Course Outcomes	
CC1	Philosophy of	CO1: Appreciate the interrelationship between Philosophy	
001	Education	and Education	
	Luucution	CO2: Appreciate the basic tenets, principles and	
		developments of the major Indian Schools of Philosophy	
		CO3: Appreciate Educational thoughts of Indian	
		Philosophers.	
		CO4: Appreciate the basic tenets principles and	
		development of the major Western Schools of Philosophy.	
		CO5: Acquaint of human values and role of education.	
CC2	Psychology of	CO1: Explain the psychological basis of Education.	
CC2		CO2: Appreciate the contribution of the theories of	
	Learning and	development and personality.	
	Development	CO3: Explain the changing concept of Intelligence and	
		creativity and its application.	
		CO4: Identify and explain the models of Teaching and	
		their utility in the Teaching learning process.	
		CO5: Analyze the Theories of learning and their utility in	
		the Teaching learning process.	
		CO6: Recognize the framework of the process of learning.	
		CO7: Visualize multiple dimension and stage of learner's	
000	G • 1 • 1	development.	
CC3	Sociological	CO1: Understand the interrelationship between Sociology	
	Foundations of	and Education.	
	Education	CO2: Apply the principals of sociology of education in	
		learning process.	
		CO3: Understand the role of new technology in the	
		changing social content.	
		CO4: Understand and analyze the changing nature of	
		society and education in 21st century.	
		CO5: Acquire the knowledge about the role of education in	
		sustainable development.	
~~ /		CO6: Creating a culture of peace in society.	
CC4	History of Indian	CO1: Understand the history of Education.	
	Education and	CO2: Classify & Compare the characteristics of education	
	Economic Issues	system in the various era of Indian education.	
		CO3: Analyses & compare the different aspects of growth	
		of the national system of education.	
		CO4: Describe & analyses the role of politics in education.	
		CO5: Analyses the role of education in economic	
		development.	
		M.Ed. Semester-II	
CC5	Educational Studies	e e	
	and System	globalization.	
		CO2: Appreciate theory and research in an era of rapidly	
		increasing racial, ethnic, linguistic, secular and caste-based	
		diversity.

		education.	
		CO5: Make available social service and leadership in	
		culturally diverse, economically challenged democratic	
		society through education.	

		CO6: Reflect critically and creatively the process of teaching and learning about the place of education in
		society.
CC6	Fundamental of	CO1: Understand the concept & types of research and
	Research	educational research.
	Methodology	CO 2: Understand the steps involved in educational
		research.
		CO3: Apply knowledge of research and make use of
		different tools and techniques in educational research.
		CO4: Effective use the library, Internet Services and other
		sources of knowledge for educational research purpose.
CC7	Perspective,	CO1: Identify issues and problems of Teacher Education.
	Research and Issues	CO2: Appreciate the contribution of innovation in Teacher
	in Teacher	Education.
	Education	CO3: Describe and conduct research in Teacher Education.
	Luucution	CO4: Predict new trends of research in teacher education.
		CO5: Identify the challenges in professional development of
		teachers.
		CO6: Analyze the factors infecting the quality of in and pre
		service teacher education program in India.
		CO7: Explain the perspectives and practices of teacher
		education.
		CO8: Recognize the issues related to enhancing teacher
		competencies, commitment & performance.
CC8	Educational	CO1. Explain the nature and scope of educational
	Technology and	technology.
	ICT	CO2. Use ICT supported advance teaching learning
	101	strategies and its application in education.
		CO3: Apply recent innovations and future perspectives of
		education technology.
		CO4: acquaint with the challenges and opportunities
		emerging in integrating new technology in educational
		processes.
		CO5: Select, apply and create instructional material and
		media effectively.
		CO6: Create the ability for critical appraisal of the audio-
		visual media.
	Ν	1.Ed. Semester-III
CC10	Testing,	CO1: Explain the meaning of testing, measurement, and
	Measurement and	evaluation.
	Evaluation in	CO2: Apply the general principles of test constructions.
	Education	CO3: Interpretation of test scores.
		CO4: Formulate and execute the teacher made test.
		CO5: Apply the concept of Grading system.
CC-12A	Issues and	CO1: Understand the concept and history of secondary and
	Concerns in	higher secondary education in India.
	Secondary and	CO2: Comprehend the Psychological Bases for Secondary
	Higher Secondary	and Higher Secondary Education.
	Education	CO3: Identify and analyze the different Structures of
	Luucation	Secondary and Higher Education.
		CO4: Understand Global Perspectives of Secondary and
		Higher Secondary Education.
OC12B	System and	CO1: Define the different perspectives and context of
	Structure of	secondary and higher secondary education.
		CO2: Comprehend the different policies and programmes
	Secondary and	of secondary and higher secondary education.
		or secondary and ingher secondary education.

	III al an Casar da arr	CO2. Discuss the surriculum serves different types of			
	Higher Secondary Education	CO3: Discuss the curriculum across different types of school in India.			
	Dutution				
0012		IV (Specialization Course)			
CC13	Curriculum Development	CO1: Define the theoretical perspectives of curriculum. CO2: Develop students' analytical ability to assess the relevance of curriculum practice in the context of learner's development in socio cultural context and advancement of knowledge system.			
		CO3: Apply the skills to design curriculum outline for a school programme.			
CC14	Education Management, Administration and Leadership	 CO1: Understand the concept, principals, and process of management skills required in the education. CO2: Explain the techniques of management of education scientifically. CO3: Apply the concepts techniques and process of management to the situation in education. CO4: Select the procedures of supervision and inspection and bring about improvement in the field of education. CO5. Acquaint with the various leadership theories and 			
OC15A	Pre-Service and In- Service Teacher Education	 leadership styles. CO1: Describe the Concept of Teacher Education - Pre service & In-Service. CO2: Explain the nature and Agencies of Teacher Education. CO3: Acquire knowledge of levels of Teacher Education. CO4: Analyze the modes of curriculum transaction & it's development. CO5: Recognize the development of Teacher Education in India & comparing of Teacher Education with other developed Countries. CO6: Differentiate the modes of pre service teacher education. CO7: Explain objectives, functions and role of various 			
OC17	Guidance and Counselling	agenesis of teacher education program. CO1: Understand meaning, need and types of guidance. CO2: Familiar with the tools and techniques of appraisal of an individual. CO3: Familiar with the need and various ways of collection and dissemination of occupational information. CO4: Comprehend meaning characteristics and types of counselling. CO5: Familiar with process and techniques of Counselling. CO6: Explain the importance of placement and follow up services. CO7: Explain meaning, purposes and out-line of job-study. CO8: Comprehend about Counselling- research, issues and trends.			

BACHELOR OF ARTS (B.A.)

Program Outcomes (POs)

PO1: To acquire knowledge in the field of social sciences, literature and humanities which make them sensitive and sensible enough.

PO2: To acquaint with the social, economical, historical, geographical, political, ideological and philosophical tradition and thinking.

PO3: To empower the graduates to appear for various competitive examinations or choose the post graduate programme of their choice.

PO4: To enable the students to acquire the knowledge with human values framing the base to deal with various problems in life with courage and humanity.

PO5: To ignite the students enough to think and act over for the solution of various issues prevailed in the human life to make this world better than ever.

PO6: To provide the base to character build up to be the responsible citizen.

Program Specific **Outcomes** (PSOs)

PSO1: To empower the students to express a thorough command of English and its linguistic structures. **PSO2:** To develop conceptual models of behaviour to predict responses to changes in policy and market conditions. Rigorous statistical analysis is used to investigate these changes.

A0001011	Economics	microeconomics such as laws of demand and supply
	Economics	and elasticity in reference to day today happenings.
		CO2: Demonstrate an understanding, usage and
		application of basic economic principles.
		CO3: Discuss and apply the methods for analyzing
		consumer behavior through demand and supply,
		elasticity and marginal utility.
		CO4: Analyze the behavioural patterns of different
		economic agents regarding profit, price, cost etc.
		CO5: Develop decision-making process in different
		market situations such as perfect competition,
		monopolistic competition, monopoly and oligopoly
		markets.
A130101T	Fundamentals of Nutrition	CO1: Prepare to understand physiology based courses.
	and Human Development	CO2: Acquaint with practical knowledge of nutrient
		rich foods.
		CO3: Explain the need and importance of studying
		human growth and development across life span.
		CO4: Identify the biological and environmental
		CO5: Define characteristics, needs and developmental
		-
		human growth and development across life spa CO4: Identify the biological and environ factors affecting human development.

A 120102D	Cooking Skills and Haaki	CO1. A consist with another 1 have a factor of
A130102P	Cooking Skills and Healthy	CO1: Acquaint with practical knowledge of nutrient
A 0/0101T	recipe development	rich foods and different methods of cooking.
A060101T		CO1: Acquaintance to Indian National Movement & Constitution is indispensable to make a sense of Indian Political System.
		CO2: Provide an overview of Indian freedom struggle
	Indian National Movement	and key concepts of the Indian Constitution to evolve
	& Construction of India	into a conscientious citizen.
A060102P		CO1: Intends to arm the students with basic digital and
		legal awareness for leverage in the job market.
		CO2: Create awareness of his basic legal rights to
		stand up and help others.
A090101T	Basic Psychological	CO1: Discuss the fundamental processes and core psychological concepts, models, classical theories, varied perspectives, and will be able to apply them in their own and in other lives.
	Processes	CO2: Establish understanding of the concepts like intelligence, motivation, emotion and personality. CO3: Develop critical analytical skills regarding these individualistic traits.
A090101P		CO1: Create awareness of the many possible
	Lab Work	experiments in each area and will be imparted a variety of skills to design and conduct psychological experiments ensuring controlled conditions, interpretations of the data, and report writing in APA style.
E010101T	Conceptual Framework of Education	 CO1: Explain the factors of education and their interrelationship. CO2: Create awareness of different agencies of education that influence education. CO3: Acquaint with the Constitutional values and Educational provisions. CO4: Distinguish between different levels of the education system. CO5: Explain the present status of different levels of education. CO6: Identify the level of education and concern governing/regulatory bodies. CO7: Differentiate the needs and importance of
		different levels of education.
E010101P	Read the Preamble of Indian	CO1: Develop stronger orientation towards research.
	Constitution, understand	CO2: Conceptualize the basic elements of Indian
	and analyze its basic ideas of	Constitution
	Justice, Equality, Liberty	
	and Fraternity. Prepare a	
	report and present what you	
	have conceptualized.	

Bachelor of Commerce (B.Com.)

Programme Outcomes (POs)		
PO-1	Understand the role of business and its implications on society	
PO-2	Understand the conceptual knowledge of accounting and acquire skills of maintaining accounts	
PO-3	Acquire entrepreneurial, legal and managerial skills	
PO-4	Identify the avenues of marketing and banking both traditional and modern

Provide understanding about plant location and plant layout and factors affecting them. CO5.Get an idea about business combinations and rationalisation. 	
C-102	Business Statistics	 CO1. Explain the primary concepts of statistics, data collection, sampling and tabulation CO2. Understand the concepts of measures of central tendency and solve problems CO3. Understand the various measures of dispersion and correlation and solve related problems CO4. Calculate the index numbers and understand the concept of time series and their application 	
C-103	Business Communication	 CO1.To makes the students aware about the business communication. CO2. To understand the process and importance of communication. CO3.To develops awareness regarding new trends in business communication, various media of communication and communication devices. CO4.To extend business communication skills through the application and Exercises 	
C-104	Introduction To Computer Application	 CO1. Understand basics about the fundamentals of computer system, the input-output devices, memory, software, operating systems and windows. CO2. Have hands on experience on various application software's used for office automation like MS-Word, MS-Excel and MS-PowerPoint, day-to-day problem solving, in particular for creating business documents, data analysis and graphical representations. CO3.Understand the fundamental hardware components that make up a computer's hardware and the role of each of these components. CO4.Apply IT in different industries like banking, railways, airlines, financial system, health, education, etc. 	
C-201	Business Management	 CO1. To understand the concept & functions and importance of management and its application. CO2. To enable the students to learn the concepts of planning and organisation. CO3. To make the student understand principles, functions and different management theories. CO4. To understand the concept & functions and importance of Controlling. 	
C-202	Financial Accounting	 CO1. To enable the students to learn principles and concepts of Accountancy. CO2.Students are enabled with the Knowledge in the practical applications of accounting CO3. The student will get thorough knowledge on the accounting practice prevailing in hire purchase accounts and instalment payment system. CO4. To find out the technical expertise in maintaining the books of accounts. Like royalty accounts, Insolvency accounts and Insurance claims. 	
C-203	Computerised Accounting	CO1. To make students familiar with computer environment & operating systemsCO2. To introduce students with accounting packages like tally.	

	CO3. To develop skill and knowledge among students in applications of internet in education of commerce	
C-204 Essentials Of E- Commerce	 CO1. Discuss constituents of electronic commerce. CO2. Classify e-Commerce applications in B2C business. CO3. Classify e-Commerce applications in B2B business. 	
	CO4. Apply the concept of EDI in business environment.	
C205 Business Economics	 CO1. Understand the role of business economics in decision making CO2. Analyse the demand determinants and measuring price elasticity of demand CO3. Analyse the peculiarities of factors of production CO4. Evaluate the supply and cost analysis of Total, Average and marginal curves. CO5. Identify Equilibrium, price and output decisions in various market 	
The state of the s	forms	
B.Com. 2 nd Year		
C-201 Company Law	 CO1.To imparts students with the knowledge of fundamentals of Company Law and provisions of the Companies Act of 2013. CO2. To apprise the students of new concepts involving in company law regime. CO3.Toacquaints the students with the duties and responsibilities of Key Managerial Personnel. 	
C-202 Cost Accounting	 CO1. To understand Basic Cost concepts, Elements of cost and cost sheet. CO2. Providing knowledge about difference between financial accounting and cost accounting. CO3. Ascertainment of Material and Labor Cost. CO4. Student's Capability to apply theoretical knowledge in practical situation will be increased. 	
C-203 Principles Of Business Management		
C-204 Income Tax	 CO1. Students will be versed in the fundamental concepts and aspects of tax. CO2. Students can understand Income Tax system properly, and can get the knowledge of different tax provisions. CO3. Tax Return, Advance Tax, and Tax deducted at Source, Tax Collection Authorities under the Income Tax Act, 1961. 	
C-205 Fundamentals Of Entrepreneurship	 CO1.Understand the functions of entrepreneur and its qualities CO2.Understand various dimensions of entrepreneurship CO3.Understand the Entrepreneurial Behaviour CO4.Role, Relevance, And achievements of Entrepreneurial Development Programmes (EDP) CO5. Role of Entrepreneur 	
C-206 Public Finance	 CO1. To have conceptual clarity of public expenditure and revenue theories; CO2. To apply the principle of optimal taxation in analysing various governments tax policies; CO3. To know the application of public economics in analysing various energy policies; CO4. To comprehend various types of public goods and its real world applications 	
B.Com. 3 rd Year	applications	

C-301	Corporate	CO 1. Understand the procedures for the issue of shares.		
	Accounting	CO 2. Prepare Financial Statements of Companies		
		CO 3. Calculate purchase consideration in case of Amalgamation,		
		Absorption and reconstruction.		
		CO 4. Ascertain profit or loss prior to incorporation by applying		
		various methods		
		CO 5. Identify the methods of valuation of Goodwill and shares.		
		CO 6. Prepare consolidated Balance Sheet		
		CO 7. Prepare liquidators' final statement of account.		
C-302	Auditing	CO 1. Gain knowledge about auditing, audit programmes, working		
	C	papers and preliminaries before audit.		
		CO 2. Analyse about implementing internal check and internal control		
		in concerns.		
		CO 3. Understand the various aspects of vouching.		
		CO 4. Learn how to verify and value various assets and liabilities		
		CO 5. Evaluate the traits of Company Auditor and how to draft Auditors		
		Report.		
C-303	Principles Of	CO 1. Understand the Modern marketing concepts		
	Marketing	CO2. Providing knowledge about marketing mix, segmentation,		
		targeting and positioning		
		CO3.Get clear idea of product planning, Diversification, Elimination		
		and pricing strategies.		
		CO4. Summarize marketing of consumer goods, channels of		
		distribution.		
		CO5. Practice and act of International marketing		
C-304	Economic Laws	CO1. To knows the students with the basic concepts, terms & provisions		
		of		
C-305	E-Commerce	CO1.Analyze the impact of E-commerce on business models and		
		strategy.		
		CO2.Describe the major types of E-commerce.		
		CO3.Explain the process that should be followed in building an E-		
		commerce presence.		
		CO4.Technology for online-Business:		
		CO5. Security and legal Aspects of E-commerce		
C-306	Management	CO1. Understand the objectives and functions of management		
	Accounting	accounting		
	_	CO2. Evaluate the financial position by using ratios		
		CO3. Gain knowledge about the preparation of fund flow statement		
		CO4. Evaluate the financial position of a concern through cash flow		
		statement Identify the capital budgeting decisions		

BACHELOR OF COMPUTER APPLICATION (BCA)

Programme Outcomes (POs)

PO1: To appreciate and apply mathematical organization, computing and domain information for the conceptualization of computing models from clear harms.

PO2: To classify and evaluate complex computing problems using fundamentals of computer knowledge and request domains.

PO3: To transform composite production scenarios and present-day issues into problems, explore, recognize and propose included solutions using rising technologies.

PO4: To invent and ways experiments interpret data and present well up to date conclusions

PO4: To invent and ways experiments interpret data and present well up to date conclusion

PO5: To select recent computing tools, skills and techniques compulsory for original software solution.

PO6: To apply and give expert principles and cyber systems in a universal monetary situation

PO7: To Identify the need for and enlarge the ability to appoint in permanent education as a computing Qualified.

PO8: To recognize administration and computing philosophy with computing acquaintance to supervise projects in multidisciplinary environment.

Program Specific Outcome (PSO)

PSO1: To enhance programming skills of the young IT professionals, the concept of project development in using the technologies learnt during the semester has been introduced.

PSO2: To prepare students in various disciplines of technologies such as computer applications, computer networking, software engineering, JAVA, database concepts and programming.

PSO3: To enhance programming skills of the young IT professionals, the concept of project development in using the technologies learnt during the semester has been introduced.

PSO4: To enhance knowledge in robotics, provide experimental hardware equipment for teaching the basics of robotics, robot dynamics and control, and robot system design and application.

PSO5: To Prepare for future aspects by building and improving their creativity, social awareness, and Knowledge.

PSO6: To develop ability to understand the changes or future trends in the field of computer application.

PSO7: To encourage to convert their start-up idea to reality by implementing.

Course Code	Course Name	Course Outcomes
BCA-101	Mathematics- I	 CO1: To demonstrate to the student's competency in the areas that comprise the core of the mathematics major. CO2: To solve and applied problems with the application of differentiation and integration. CO3: To use appropriate technologies to solve mathematical problems. CO4: To apply matrices in different industry problems.
BCA-102	Programming, Principle& Algorithm	 CO1: To understand basic terms used in programming Language CO2: To draw and design an algorithmic solution for a given problem. CO3: To write a C program for a given algorithm. CO4: To use different types of data structures and update basic data files. CO5: To trace out the error and resolve it
		using debugging techniques and developlogical and analytical thinkingCO1: To classify the computers in
BCA-103	Computer Fundamental and office automation	 different categories based on their capabilities and size. CO2: To discuss an understanding of the importance of algorithms in the development of computer applications. CO3: To identify different types of computer hardware and peripheral devices. CO4: To discuss the evolution of computers in different generations of Computers.
BCA-104	Principle of Management	 CO1: To identify various approaches or methods in management in order to solve a problem. CO2: To understand the roles and responsibilities associated with the managerial functions. CO3: To learn the latest strategies that can motivate our employee to give his best in the organization. CO4: To identify the key contributors and their contributions in the organization to the development of management decisions.

		CO5: To know what a manager does and how they are integral to planning, organizing, leading and controlling a modern organization
BCA-105	Computer Fundamentals and Office Automation Lab	CO1: To aware about the four basic functions of the computer.CO2: To familiar with the need of computers in our daily lives.CO3: To familiar with application software's which are available in the market.
BCA-106	Business Communication	 CO1: To understand and identify key principles in business the communication. CO2: To discuss different processes and considerations involved in writing in business. CO3: To understand and create various types of business reports. CO4: To understand and create a presentation using slides. CO5: To understand, select and recruit new employees.
BCA-107	Programming Principles and Algorithms Lab	 CO1: To know that to code is like learning how to read and write in a different medium, thus, enabling us with creative and expressive power. CO2: To familiar with logic building and systematic programming. CO3: To aware of and apply appropriate coding skills for different requirements or scenarios. CO4: To practice and learn planning by thinking through the steps necessary to achieve our end goal. CO5: To gain an ability to move past debugging, frustrations and continue to find solutions to help complete their project.
BCA-008	Environmental Studies	 CO1: To understand the importance of these resources and how to preserve these resources. CO2: To develop the knowledge and skills required to address challenging environmental issues. CO3: To understand how their decisions and actions affect the environment.

		CO4: To aware about the various types of pollution, and how to minimize them. CO5: To motivate to keep our environment healthy and safe so that everyone can live a healthy life.
BCA-201	Mathematics II (MATHS)	 CO1: To demonstrate competency in the areas that comprise the core of the mathematics major. CO2: To solve applied problems with the application of differentiation and integration. CO3: To use appropriate technologies to solve mathematical problems. CO4: To apply matrices in different industry problems. CO5: To generate mathematical models to solve different types of practical
BCA-202	C Programming (C Prog.)	 problems. CO1: To understand basic terms used in programming. CO2: To design an algorithmic solution for a given problem. CO3: To write a C program for a given algorithm. CO4: To use different data structures and update basic data files. CO5: To trace out the error and resolve it using debugging and develop logical and analytical thinking.
BCA-203	Organizational Behaviour (OB)	 CO1: To analyze and compare different models used to explain individual behaviour related to motivation and rewards. CO2: To identify the processes used in developing communication and resolving conflicts. CO3: To explain group dynamics and demonstrate skills required for working in groups (team building).
BCA-204	Digital Electronics & Computer Organization (DECO)	CO1: To explain the fundamental concepts.CO2: To apply the techniques of digital electronics.CO3: To understand and examine the structure of various number systems and its application in digital design.

BCA-205	Financial Accounting & Management (FAM)	CO1: To apply oral and written communication skills.32 CO2: To describe and explain the ethical and social responsibilities of accountants in ensuring the integrity of financial information. CO3: To develop an understanding of internal control issues and the effects of the regulatory environment on financial reporting CO4: To develop the understanding about meaningful, observable and measurable knowledge, skills and dispositions.
BCA- 206	Computer Laboratory and Practical Work of C Programming (P)	 CO1: To impart adequate knowledge on the need of programming languages and problem-solving techniques. CO2: To develop an in-depth understanding of functional and logical concepts of C Programming. CO3: To acquire logical thinking, Implement the algorithms and analyze their complexity, Identify the correct and efficient ways of solving problems CO4: To Implement real time applications using the power of C language features.
BCA 2nd Year BCA-301	Object oriented programming with C++	 CO1: To understand the difference between the top-down and bottom-up approach. CO2: To understand and describe the object-oriented programming approach in connection with C++. CO3: To understand and apply the concepts of object-oriented programming. CO4: To understand and illustrate the process of data file manipulations using C++. CO5: Apply virtual and pure virtual function & complex programming situations.
BCA-302	Data Structure Using C & C++	CO1: To develop the Understanding the linear and non-linear data structures sorting and searching operations, File structures.

		 CO2: To understand and analyze the performance of - Stack, Queue, and Lists. CO3: To analyze the performance of Trees, Graphs, Searching and Sorting techniques. CO4: To understand and Implement all the applications of Data structures in a high-level language. CO5: To understand, design and apply appropriate data structures for solving computing problems.
		Computing proceedingCO1: To understand the concept and theory of Computer Architecture.CO2: To understand the theory and architecture of central processing unit and analyze some of the design issues in terms of speed, technology, cost, performance
BCA-303	Computer Architecture & Assembly Language	CO3: To understand the Concept and algorithms of Computer Arithmetic's. CO4: To understand Input Output Organization, design a simple CPU with applying the theory concepts and concepts of parallel processing, pipelining and inter processor communication. CO5: To use appropriate tools to design verify and test the Microprocessor architecture.
BCA-304	Business Economics	 CO1: To understand and develop an understanding of the applications of managerial economics. CO2: To understand and Interpret regression analysis and discuss why it's employed in decision-making. CO3: To understand and discuss optimization and utility including consumer behaviour. CO4: To understand and assess the relationships between short-run and long-run costs. CO5: To understand and analyze perfectly competitive markets including substitution. CO6: To explain uniform pricing and how it relates to price

BCA-305 BCA-306	Element of Statics	CO1: To understand and describe and discuss the key terminology, concepts tools and techniques used in business statistical analysis. CO2: To understand and critically evaluate the underlying assumptions of analysis tools. CO3: To understand and critically discuss the issues surrounding sampling and significance. CO4: To understand and discuss critically the uses and limitations of statistical analysis. CO5: To understand and Solve a range of problems using the techniques covered. CO1: To understand and describe the procedural and object-oriented paradigm with concepts of streams, classes, functions, data and objects. CO2: To Understand dynamic memory management techniques using pointers, constructors, destructors, etc. CO3: To understand and describe the concept of function overloading, operator overloading, virtual functions and polymorphism. CO4: To understand and classify inheritance with the understanding of early and late binding, usage of exception handling, generic programming. CO5: To understand and demonstrate the use of various OOPS concepts with the help of programs
BCA-307	Computer Laboratory and Practical Work of DS	 CO1: To understand the concept of Dynamic memory management, data types, algorithms, Big O notation. CO2: To understand basic data structures such as arrays, linked lists, stacks and queues. CO3: To understand and describe the hash function and concepts of collision and its resolution methods. CO4: To understand and solve problem involving graphs, trees and heaps. CO5: To understand and apply Algorithm for solving problems like sorting, searching, insertion and deletion of data.

BCA-401	Computer graphics and Multimedia Applications (CGMA)	 CO1: To understand and identify computer Graphics and Tools. CO2: To familiar with Multimedia applications. CO3: To understand Graphical formula in3-D to 2-Dimensional objects. CO4: To understand and follow a series of stages collectively known as Graphics Pipeline. CO5: To understand and concentrate the digital content in a human comprehensible form on a computer screen.
BCA-402	Operating System (OS)	 CO1: To understand the basic components of a computer operating system, and the interactions among the various components. CO2: To understand and describe the policies for scheduling, deadlocks, memory management, synchronization, system calls, and file systems. CO3: To understand and allocate the resources to users and processes CO4: To understand the operating systems implement significant OS functionality in user-mode, e.g. User-mode such as Linux. CO5: To understand and access to I/O devices – Display, disk, network, printer, keyboard, camera, etc. Controlled access to files–Access protection, System access – User authentication.
BCA 403	Software Engineering (SE)	 CO1: To understand and embrace problem solving and learning as a natural aspect of their work. CO2: To understand and enhance value and is valued by their professional teammates. CO3: To understand and Gain to have broad and deep knowledge of the technical issues that they face. CO4: To understand and develop the Basic knowledge and understanding of the analysis and design of complex systems.

		CO5: To understand and differentiate between the methods and procedures for software development that can scale up for large systems and that can be used consistently to produce high-quality software at low cost and with a small cycle of time.
BCA- 404	Optimization Techniques (OT)	 CO1: To understand and develop the ability to apply the theory of optimization methods and algorithms to develop and for solving various types of optimization problems. CO2: To understand and develop the Ability to go in research by applying optimization techniques in problems of Engineering and Technology. CO3: To understand and achieve the "best" design relative to a set of prioritized criteria or constraints (In equations). CO4: Enrich about maximizing factors such as productivity, strength, reliability, longevity, efficiency, and utilization. CO5: To understand and Explain the decision-making process about Information System, Industry-Engineering and Manufacturing Systems, Multi criteria Decision Making and Operations and Supply Chain Management
BCA -405	Mathematics III	 CO1: To understand and apply basic definitions and concepts in set and function theory. CO2: To understand the definitions of limits and convergence in the context of sequences and series of real numbers. CO3: To understand and compute limits of sequences involving elementary functions. CO4: To understand and Classify partial differential equations and transform into canonical form. CO5: To understand and solve linear partial differential equations of both first and second order and apply partial derivative equation techniques to predict the behaviour of certain phenomena.

BCA -406 BCA 3 rd Year	CGMA Lab	OpenGL for Graphics.CO2: To understand and explain the Programming User-interface issuesCO3: To understand and describe the Concepts of 2D & 3D object representation.CO4: To understand and familiar about
BCA -501	Introduction to DBMS	 CO1: To understand and identify the basic concepts and various data model used in database design ER modelling concepts and architecture use and design. CO2: To understand and apply relational database theory and be able to draw ER Model, class, sub class super class Inheritance, Specialization and Generalization. CO3: To understand File Organization, sequential access files, Implementation using B & B++ Tee, indexing and hashing technique used in database design. CO4: To understand the Relational Data Model Concept, Relational Constraints, identify the purpose of query processing and optimization and also demonstrate the basic of query evaluation. Described
		 relational algebra expression, tuple and domain relation expression for queries SQL and PL/SQL Programming. CO5: To understand the EER and ER to relational mapping and database design using EER relational Language. CO6: To understand and recognize and identify the use of normalization and functional dependency, CO7: To understand and apply and relate the concept of transaction, concurrency control and recovery in database.
BCA -502	Java Programming and Dynamic Webpage Design	CO1: To understand and explain the

		CO3: To understand and familiar about Java Programming.
		CO4: To understand and create wide range of Applications and Applets using Java. CO5: To develop the ability to work with I/O Streams.
		CO1: To understand the overview of networks OSI model and Physical Layer.
		CO2: To understand and obtain the knowledge about error deduction and correction in Data Link Layer.
BCA -503	Computer Network	CO3: To understand and acquire the knowledge about packet switching network and addressing in Network Layer. CO4: To understand and develop the understanding about TCP in Transport Layer.
		CO5: To understand and develop the ability to understand client/Server programming WWW and Email using Application Layer
BCA -504	Numerical Methods	 CO1: To understand and analyze the broad range of numerical methods for solving mathematical problems that arises in Science and Engineering. CO2: To understand and provide a basic understanding of the derivation, analysis, and use of these numerical methods, along with a rudimentary understanding of finite precision arithmetic and the conditioning and stability of the various problems and methods. CO3: To understand and apply the appropriate numerical techniques for your problem, interpret the results, and assess accuracy. CO4: To understand and differentiate between systems of linear equations, linear least squares problems, and eigenvalue calculation; (ii) interpolation, approximation, and integration of functions; (iii) initial values problems governed by ordinary differentiate equations; (iv) nonlinear scalar equations.

BCA- 505	Minor Project	CO1: To understand of how practices impact on different selected groups of students (potential withdrawers; actual withdrawers; disabled students; low participation and ethnic minority groups). CO2: To understand and explain the model of practice for institution and sector. CO3: To develop the ability of identification, articulation and measurement of activities that contribute to Belonging and Intimacy. CO4: To understand and Integrated data set related to retention and methodology for continued analysis
BCA- 506	Viva-Voice on Summer Training	 CO1: To understand and offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, and perceptions along with the experience needed to constitute a professional identity. CO2: To understand and provide means to immerse students in actual supervised professional experiences. CO3: To understand and give an insight into the working of the real organizations. CO4: To appreciate the linkages among different functions and departments. CO5: To understand and develop perspective about business organizations
BCA -507	Computer Laboratory and Practical Work of DBMS	 in their totality CO1: To understand, Design and implement a database schema for given problem. CO2: Capable to design and build a GUI application. CO3: To understand and Apply the normalization techniques for development of application software to realistic problems. CO4: To understand and Formulate queries using SQL DML/DDL/DCL commands. CO5: To understand and design and build a simple database system and demonstrate competence with the fundamental tasks involved with modelling, designing, and implementing a DBMS.

BCA- 508	Computer Laboratory and Practical Work of Java Programming & Dynamic Webpage Design	 CO1: To understand and Identify classes, objects, members of a class and relationships among them needed for a specific problem. CO2: To understand and Write Java application programs using OOP principles and proper program structuring. CO3: To understand and demonstrate the concepts of polymorphism and inheritance. CO4: To understand and write Java programs to implement error handling techniques using exception handling. CO5: To understand and gain knowledge about basic Java language syntax and semantics to write Java programs and use concepts such as variables, conditional and iterative execution methods etc.
BCA-601	Computer Network Security	 CO1: To understand and identify some of the factors driving the need for network security. CO2: To understand and identify and classify particular examples of attacks. CO3: To define the terms vulnerability, threat and attack. CO4: To understand and identify physical points of vulnerability in simple networks. CO5: To understand and compare and contrast symmetric and asymmetric encryptions systems and their vulnerability to attack, and explain the
BCA-602	ISAD	 characteristics of hybrid systems. CO1: To understand the basic terms used in information system. CO2: To write a C Program for a given algorithm. CO3: To understand and use different data structures and update basic data files. CO4: To trace out the error and resolve it using debugging and develop logical and analytical thinking.
BCA-603	E-Commerce	CO1: To understand the Concept of E- commerce and Business Strategy in Electronic Age and different models of E- Commerce.

		 CO2: To understand, administer and Maintain B2B E-Business sites. CO3: To understand the Internet Architecture and Electronic Payment System. CO4: To understand and demonstrate the knowledge of Legal and Regulatory policy issues in E-commerce.
		CO1: To understand and Remember different knowledge management concepts. CO2: To understand and Create an understanding of data mining and knowledge discovery.
BCA-604	Knowledge Management	CO3: To understand the use of one of the approaches of MIS i.e. Executive information system for developing the strategic information in an organization.
		CO4: To understand and evaluate different approaches of MIS and take business decisions for different organizations. CO5: To understand and analyse the relationship between information, tacit knowledge, explicit knowledge and organizational knowledge.
		CO1: To understand and aware about designing an Online Project with advanced technologies of their choice.
BCA-605	Major Project	 CO2: To understand and train to meet the requirements of the industry. CO3: Students will able to develop a project professionally. CO4: To understand and develop the ability to prepare an SRS report. CO5: To understand and develop good presentation skills.

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

Programme Outcomes (POs)

PO1: To develop students professionally to handle business issues.

PO2: To demonstrate managerial competence in domestic and global business.

PO3: To equip with the professional ethics and corporate social responsibility of the business towards society.

PO4: To demonstrate critical and analytical thinking skills through case studies, role plays and simulationbased games and activities.

PO5: To apply technological knowhow for business advancements.

PO6: To develop Entrepreneurship Acumen.

PO7: To conceptualize a complex issue into a coherent written statement and oral presentation.

PO8: To demonstrate knowledge and understanding of the management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO9: To comprehend the impact of the professional solutions in societal and environmental contexts, and demonstrate the knowledge of and need for sustainable development.

PO10: To encompass ethical principles and commit to professional ethics and responsibilities and norms of the management practice.

Program Specific Outcomes (PSOs)

PSO1: To determine the various PEST (Political, Economic and Social Technological) factors influence on changes of business environment.

PSO2: To analyse the various aspects of business research in the area of marketing, human resource and finance.

PSO3: To determine conceptual and analytical abilities required for effective decision-making.

PSO4: To analyse theoretical knowledge with the practical aspects of Organisational setting and techniques or management.

Course Ou	Course Outcomes		
Course Code	Course Name	Course Outcomes	
BBA 101	Fundamentals of Management	 CO1: To Understand the concept of Management, its levels and functions. CO2: To Determine the managerial roles and skills, with special attention to managerial responsibility for effective and efficient achievement of goals. CO3: To Understand the planning process, its types and various decision-making models. CO4: To Ascertain the nature of organization structure, and its different types explaining Span of Control. CO5: To Understand directing principles, its components and apply the control methods. 	
BBA 102	Organizational Behaviour	 CO1: To obtain the conceptual knowledge of organisational behaviour, and analyse the models and concepts. CO2: To have inclusive knowledge about the behaviour of individuals in terms of personality, perception, attitude in organisations CO3: To acquaint in various theories of leadership used in organizations. 	

I		
		CO4: To assimilate and evaluate the importance of group roles
		and group tasks.
		CO5: Gain experience about organisational culture and
		implementation of commodious organisational climate
BBA 103	Managerial Economics	CO1: Develop Understanding to take business decisions in
	<u> </u>	different business situation using theory and concept.
		CO2: To analyse consumer behaviour and their utility for their
		consumption through utility, consumer equilibrium, indifference
		curve & demand concept.
		CO3: To apply the concept of demand and elasticity practically.
		CO4: To evaluate the relationship between price and output
		determination in different market structure.
		CO5: Develop Understanding to Business cycle, BOP,
		relationship of economic growth and inflation.
BBA 104	Accounting and	CO1: To demonstrate a good understanding the concept of
	Financial Analysis	double entry system and principles of accounting.
		CO2: To apply critical thinking and problem-solving skill for
		preparation of trading and profit and loss account and balance
		sheet of sole trader.
		CO3: To understand of various methods of maintaining accounts
		of Departments.
		CO4 To comprehend accounting for branches and departments
		CO5: To develop understanding about the accounting of single-
		entry system and its difference with double entry system.
BBA 105	Business Law	CO1: To analyse awareness of law related to sales of goods,
		the unpaid seller
		CO2: To understand about creation and termination of the
		contract of agency
		CO3: To understand the different provision related to
		negotiable instruments
		CO4: To understand consumer protection measures available
		in India
		CO5: To exercise the applicability of IPR, filing and
		infringement of IPR
BBA 106	Business Organization	CO1: To comprehend the concepts of Business.
	and Ethics	CO2: To understand that how to established a new business.
		CO3: To analyse the scale of business.
		CO4: To Comprehend the use of ethics in business.
		CO5: To validate, or correct, personal ideas about various ethical
		perspectives
BBA 008	Environmental Studies	CO1. To Memorise the concepts related to the ecological
		biodiversity of our planet.
		CO2. To Interpret important processes associated with the
		evolution of life on earth.
		CO3. To Apply the concepts related to ecology for sustainable
		life on earth.
		CO4. To Analyse the importance of wildlife protection and its role in preserving the food chain.
		CO5. To evaluate the methods of prevention and safety from
DDA 301	Quantitating	pollutants.
BBA 201	Quantitative	CO1. To understand the key terminologies, concepts, tools and
	Techniques for	techniques of Quantitative techniques.
	Business	CO2. To calculate and interpret the average and dispersion for a
L		set of data.

BBA 202 Business Communication CO3. To know about probability and its application CO5. To Know about probability and its application BBA 202 Business Communication CO 1: To analyse time series data and its components by various methods. CO 2: To know about probability and its application CO 1: To analyse the elements of the business communication process. CO 3: To Practice business documents, including memos, email, letters, and reporting to management. CO 3: To Improve interpersonal communication. CO 4: To understand reporting to management. CO 6: To CO:			
BBA 202 Business CO4. To analyse time series data and its components by various methods. CO5. To know about probability and its application CO5. To know about probability and its application BBA 202 Business CO 1: To analyse the elements of the business communication process. CO 3: To Prepare effective business documents, including memos, email, letters, and reports CO 3: To Interve effective business documents, including memos, email, letters, and reports BBA 203 Human Resource CO1: develop an understand reporting to management. CO2: To inclucate the essential skill sets required to function as an HR manager. CO3: To contribute to the implementation and evaluation of plans related to employer recruitment, selection, appraisal, promotion and transfer processes BBA 204 Marketing CO1: To understand the basic concepts of salary system, wage policy and system of payments. BBA 204 Marketing document. CO3: To analyse the concept of New product life cycle. Develop the understanding of Marding. CO3: To analyse the concept of New product life cycle. Develop the understanding of Marding. CO3: To analyse the concept of procing in detail. Learning of promotion mix. CO3: To explain the effects of government policy on the CO nomic environment and instruction channel. CO4: To understand the concepts in a business environment to CO1: To explain the effects of government policy on the CO nomic environment and insurance industry. CO3: To cuplai			CO3. To apply correlation rules and theoretical distributions to
BBA 202 Business Communication CO5. To know about probability and its application CO5. To know about probability and its application CO1: To analyse the elements of the business communication process. CO1: To analyse the elements of the business documents, including memos, email, letters, and reports. CO 3: To Prepare effective business documents, including memos, email, letters, and reports. 		Management.
		CO2: To demonstrate financial information for decision making.
		CO3: To apply theoretical information to determine financial plan and capital structure of the business.
		CO4: To evaluate financial performance of the business
		organization by using different evaluation techniques.
		CO5: To integrate the concept and apply the financial concepts
		to calculate ratios and do the capital budgeting
BBA 403	Production & operation	CO1: To analyse the Production Planning & Control (PPC) and Objectives of PPC
	management	Objectives of PPC. CO2: To understand the concepts of Intermitted & Continuous
		manufacturing Systems, Product design & development.
		CO3: To understand the Plant Location & Plant layout.
		Inventory Management concepts.
		CO4: To analyse the Quality as Quality assurance, Quality
		Circles, TQM, JIT, Statistical Quality Control of a firm CO5: To apply the concepts of operation Management.
BBA 404	Sales & distribution	CO1: To demonstrate the functions of Sales executives and
	management	relation with other executives.
		CO2: Demonstrate different types of sales organization
		structures and Distributive Network relations.
		CO3: Understanding of theories of personal selling and qualities
		of sales executives, prospecting, pre-approach and post- approach.
		CO4: To comprehend the Concept of physical distribution
		system. And stages of sales process in retail.
		CO5: To analyse information about sales Force Management.

BBA 405	Research methodology	CO1: To understand the process of research. Identify and formulate research problems.
		CO2: Construction of good research design and learning of
		construction of questionnaires.
		CO3: Understand the concept of sampling in detail for data
		collection.
		CO4: To understand the concept of Data processing and
		analysis. Creation of hypothesis and apply z- test, t-test, f-test.
		Elementary Knowledge of SPSS.
		CO5: Presentation of report using different types of report and learning of report writing.
BBA 406	Entrepreneurship and	CO1: To define the concepts related to entrepreneurship,
	Small Business	theories of entrepreneurship, types of entrepreneurs
	Management	CO2: Understanding of the concepts related to SIB, CSIO,
		SSDO, SISI. Explain the roles of women entrepreneurs
		CO3: Understanding the framework of Small Business,
		Elementary Knowledge of Make in India, Start up, Stand-up
		India, Mudra Loan, Schemes of Union Government and its initiative on ATAMNIRBHAR BHARAT and Vocal for Local.
		CO4: Explain the Project classification, identification, selection,
		formulation and appraisal and Preparing Project Report.
		CO5: Defining steps in starting a small industry. Identification
	~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~	of teething problem in setting small units:
BBA 407	Computer oriented	CO1: Facilitate the knowledge of MS Office, creating web page,
	practical & viva voce	application of computers in project management ,Usages of Official use of Blogs, Facebook, LinkedIn, Twitter, Poster
		making using Canva.
		CO2: Understanding of Digital signature, e-Governance,
		Application of Digital Financial Services,
		Basics of E- mail, Electronic payment system, Digital signature.
		CO3: Introduction of issues in mobile computer wireless
		telephony: cellular concept, GSM: air-interface, channel
		structure, location management, CDMA, GPRS. CO4: Explain the concept of E-Marketing and E-CRM
		CO5: Understanding the concept Data Security, Firewall and
		VPNs, Intrusion Detection, Access Control. Security Threats-
		Viruses, E-mail viruses, Macro viruses, Network and Security
		Threats to E-Commerce, Outline Electronic Payment system.
BBA 3 rd	Year	
BBA 501	Entrepreneurship and	CO1: Define the concepts related to entrepreneurship:
	Small Business	entrepreneur, functions, development programs, motivation;
	Management	rural and small scale enterprise.
		CO2: Explain the concepts related to entrepreneurship:
		entrepreneur, functions, development programs, motivation;
		rural and small scale enterprise. CO3: Illustrate the concepts related to entrepreneurship:
		entrepreneur, functions, development programs, motivation;
		rural and small scale enterprise.
		CO4: Examine the concepts related to entrepreneurship:
		entrepreneur, functions, development programs, motivation;
		rural and small scale enterprise.
		CO5: Evaluate the concepts related to entrepreneurship:
		entrepreneur, functions, development programs, motivation; rural and small scale enterprise.
		rurar and sman scale enterprise.

		CO6: Synthesize the concepts related to entrepreneurship: entrepreneur, functions, development programs, motivation; rural and small scale enterprise.
BBA 502	Managerial Economics	 CO1: Determine identification of economic environment. CO2: interpret concept and relationship of law and variable proportion and return scale. CO3: Candidate can easily analyse market situation to diagnose problem through the analysis of the business environments CO4: Candidate can apply suitable technique of achieving business target. CO5: Candidate can evaluate different alternative solutions and can choose appropriate solution to overcome the problem. CO6: Candidate can prepare/develop report which shows phases of business cycle and create new concepts as business ethics to improve goodwill of business enterprise.
BBA 503	Cost and Management Accounting	 CO1: Acquaint with the fundamentals principles of management accounting. CO2: Prepare; analyse and interpret financial statements.
