STRATEGIC PLAN AND DEPLOYMENT

The college administration firmly supports the establishment of long-term strategies for excellent academic and infrastructure development. This is represented by long and short-term goals related to college functioning. The annual action plans include these perspective plans. The perspective plan is decided by the IQAC and must be approved by the CDC (College Development Council) sessions. Institutional strategic planning enables the ability to visualise a stronger institution, gather ideas from various stakeholders, and be more specific about how to achieve institutional goals through collective decisions on where, how, and why to distribute resources. In accordance with the NAAC's advice, the IQAC set the following objectives, which were acknowledged by the CDC and included in the AQARs:

Strategic Plan for 2020-21

- To introduce new programmes and courses
- To encourage the faculty for research work.
- To organize Faculty Development Programs
- To enhance infrastructural facilities
- To implement Learning Management System
- To promote extension activities to aware about social responsibility

Implementation

Keeping in mind these objectives, the institution prioritised the need to become a reputed educational institution and offer an excellent academic growth for students with relevance to current trends.

- Introduced B.A. Program in 2021 to widen the scope of academic growth.
- Organized faculty development program to enhance the knowledge and skills for teaching and non-teaching staff to facilitate up-gradation of knowledge, skill and intends to provide opportunities for induction training to teachers.
- Add on courses was introduced to make students prepared to meet industry demands as well as develop their own interests and aptitudes.
- The development plan for upgradation and renovation of infrastructure facilities was implemented.
- Implementation of Learning Management System is in progress.
- The College has organized several international and national level webinars, online workshops and guest lectures.
- Due to the pandemic, community extension activities have been postponed until the next academic session.

Workshop on “ETHICAL HACKING”

Introduction

Ethical hacking involves an authorized attempt to gain unauthorized access to a computer system, application, or data. Carrying out an ethical hack involves duplicating strategies and actions of malicious attackers. This practice helps to identify **security vulnerabilities** which can then be resolved before a malicious attacker has the opportunity to exploit them.

The IT fest was started at 10:00am at our college seminar hall with the staff members and all students presented in the guidance of Principal Dr. Nisha Singh with a common goal to learn something valuable. So let's begin it with lamp lighting session for which Ms Sangeeta welcomed Principal Dr. Nisha Singh and the HODs of all the department to come on the stage and give a tribute to Maa Saraswati the goddess of Education.

The BCA/BBA/B.COM final year students organized this event under the guidance of Mr. Arvind Kumar Pandey, Head of the Department of BCA. The objective of this event was to provide various ideas on protection of network and reveal skillfulness on ethical hacking.

During this event, Sumit (BCA 5th sem) various issues related to Ethical Hacking were discussed. Ethical Hacking is the official method to hack systems and find loop holes in existing security systems, networks applications. Issues that are raised in this process are used in research and development for developing high security systems. During the development of the Internet, computer security has become a major concern for industry. Companies want to take advantage of the Internet for electronic commerce, advertising, information distribution and access, and other pursuits, but they are also worried about the possibility of being "hacked." Concurrently, the potential customers of these services too are worried about maintaining control of personal information that varies from credit card numbers to social security numbers and home addresses.
